

Dinosaur Hall

Dinosaur Hall at Cincinnati Museum Center features six giant dinosaur specimens, including the nearly 60-foot-long *Galeamopus pabsti*! These giant beasts roam the halls, and it is up to you to find out more about them. As you explore this gallery, we invite you to let your imagination run wild. The prompts below will help you experience all that this gallery has to offer. To learn more about CMC's *Dinosaur Hall*, please visit www.cincymuseum.org/sciencemuseum/dinosaur-hall.

Act

- Did you know that pterosaurs are flying reptiles? Try finding one in *Dinosaur Hall*. Imagine how they would move their limbs to fly. Can you move like a pterosaur?
- Find your favorite dinosaur and recreate how it would move.
- **Pre-K:** Count the footprints you see on the ground. Try jumping from one to the other.

Discover

- Plants are a long-standing similarity between prehistoric, historic and even contemporary times. See if you can find examples of plants that you could find in your backyard today.
- **Pre-K:** If you look closely, bones often resemble shapes. Try to identify the shapes you see in each bone.

Investigate

- Take a peek at the multi-colored footprints. What can you tell about each dinosaur that made the footprint? Were they big or small? Were they fast or slow?
- **Pre-K:** Did you know dinosaurs are not extinct? Where can you find them today? Do they walk on two feet? Do they fly?

Share

- What is your favorite dinosaur? Why is it your favorite dinosaur?
- If you could design a new dinosaur, what characteristics do you think are important for it to possess?
- **Pre-K:** What types of food do you think dinosaurs ate? Do other animals eat similar foods?
